

CASE STUDY

Enterprise Legal Technology & eDiscovery Platform

AI-POWERED LEGAL OPERATIONS & COMPLIANCE ECOSYSTEM

Lineal is a global legal technology and eDiscovery company helping enterprises, law firms, and compliance teams manage investigations, litigation, regulatory response, and data governance operations through AI-driven workflows and enterprise-grade legal technology.

TECH STACK WE USED

01 OVERVIEW

Scalable AI-Powered Legal Technology Platform

Lineal required a modern enterprise platform capable of showcasing AI-powered legal workflows, eDiscovery services, compliance solutions, and managed legal operations while supporting large-scale content management and global business growth.

- AI-Powered eDiscovery**
Created a structured experience for modern legal review and investigation workflows.
- Enterprise Legal Services**
Organized complex legal technology services into clear user journeys.
- Dynamic Resource Ecosystem**
Built scalable systems for case studies, insights, and enterprise content management.

03 SOLUTIONS

Solution Provided

The solution focused on building a scalable enterprise legal-tech platform with modern UI/UX architecture, performance optimization, and flexible CMS management for complex legal service operations.

- 1/ Enterprise Website Architecture**
Developed a scalable platform structure for services, resources, case studies, and legal operations.
- 2/ Advanced CMS Development**
Built dynamic CMS functionality using ACF PRO and Custom Post Types.
- 3/ AI-Focused UX Strategy**
Simplified AI and eDiscovery workflows into enterprise-friendly experiences.
- 4/ Performance Optimization**
Implemented optimized frontend architecture and CDN-based delivery.
- 5/ Dynamic Resource System**
Created reusable templates for resources, case studies, and insights.
- 6/ Responsive Enterprise Design**
Ensured accessibility and consistency across desktop, tablet, and mobile devices.
